PURIFICATION
SYSTEMS

- Removes 98% of sulfur emissions
- Independent hybrid systems that can operate in open or closed loop modes
- Continuous Monitoring
- Has Selective Catalytic Reduction (SCR) for NOx removal

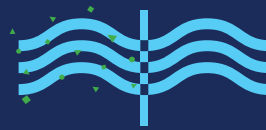

SHORE POWER

WATER MANAGEMENT*

1
Advanced Wastewater Purification System Treats **570,000 GALLONS** Per Day

Average Guest Water Consumption Per Day:

Reverse Osmosis/ Desalination Plant

Ballast Water Treatment

*Treated water is twice as stringent as many municipalities

WASTE MANAGEMENT

LANDFILL FREE*

0 Plastic Straws, Condiment and Creamer Containers

*where green hub ports allow

Cold Room Storage

Glass Crushers

Aluminum Can Compactor

Incinerators

Cardboard Bailer

Food Waste Pulper
